

PAWAN KUMAR SACHDEVA

Senior Full Stack & AI Engineer | 5+ YOY | React, Next.js, Python, FastAPI, GenAI

pawansachdeva1998@gmail.com | +91-8968692484 | Gurugram, India

LinkedIn | GitHub | Portfolio

SKILLS

Programming Languages:	JavaScript, TypeScript, Python
Frontend Technologies:	React.js, Next.js, Tailwind CSS, ShadCN
AI & LLM:	LangChain, LangGraph, LangSmith, RAG, MCP
Backend & Databases:	FastAPI, Django, PostgreSQL, MS SQL, Qdrant, Redis
DevOps & Cloud:	Git, GitHub, Docker, Azure

EXPERIENCE

Hitachi MGRM Net | Software Developer

Gurugram | June 2024 - Present

- Led development of AI-enabled CRM platform serving 2M+ users across 5000+ schools using NestJS and scalable micro-frontend architecture.
- Built AI-powered chatbot and conversational workflows using LangChain, LangGraph, and RAG, enabling context-aware responses and intelligent agent interactions within the CRM ecosystem.
- Designed and implemented RAG pipelines using Qdrant for vector search and PostgreSQL for persistent data, integrating FastAPI services to support scalable AI-powered workflows.
- Implemented real-time calling in the agent module with WebRTC, JsSIP, Asterisk, and Socket.IO, improving agent response time by 50%.
- Integrated AI-driven call summaries with RingCentral and added Jitsi for seamless in-browser video calls, reducing manual documentation by 90%.

Laminaar Aviation Infotech | Associate Software Engineer

Bengaluru | February 2023 - March 2024

- Led a team of 4 to build airline operational modules using React.js, RTK, and a custom library.
- Developed backend services using Node.js for airline crew and operational management systems.
- Achieved over 85% test coverage using Jest, React Testing Library (RTL), and MSW, while maintaining less than 5% code duplication.
- Deployed Node.js services on Azure App Service, improving uptime and reliability for airline crew systems.

Cognizant | Programmer Analyst Trainee

Bengaluru | July 2021 - July 2022

- Implemented pharma dashboards using React and Material UI v5, consuming REST APIs with a fully responsive UI across all major browsers.
- Ensured accessibility compliance (WCAG) and delivered component-driven frontends aligned with established UX standards.
- Integrated AWS services through CI/CD pipelines (Jenkins) to streamline deployments.

OPEN SOURCE CONTRIBUTIONS & PROJECTS

use-history-ai | NPM Package | NPM | GitHub

TypeScript, React, Google Gemini AI

Released a React hook for AI-powered clipboard management using Gemini for smart text insights.

Personal Portfolio with AI Chatbot | Live | GitHub

Next.js, Gemini AI

Integrated Gemini AI chatbot for natural language interactions, enhancing user engagement.

Figma Clone | Live | GitHub

Next.js, ShadCN, Liveblocks

Developed a real-time collaborative design tool with live canvas drawing and multi-user sync.

RapidChat | Live | GitHub

React, Node.js, Socket.IO

Built a full-stack real-time chat app using MERN and Socket.IO with authentication and live messaging.

EDUCATION

Guru Nanak Dev Engineering College, Ludhiana (IKGPTU)

2017 - 2021

Bachelor of Technology
